

App. No. 10/711,972

**In the Specification:**

Please replace paragraph 51 with the following per Examiner's comments on page 2 of the Office Action:

"URL (Uniform Resource Locator): the address of a Web component or other data. The URL identifies the protocol used to communicate with the server host, the IP address of the server host, and the location of the requested data on the server host. For example, "http://www.lucent.com/work.html" specifies an HTTP connection with the server host "www.lucent.com", from which is requested the Web page (HTML file) work.html. UWU server: in connection with the present invention, a special Web server in charge of distributing statistics describing Web traffic. "
